Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on 23 February 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☐ Claim(s) 1-3, 6, 7 and 9-11 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☐ Claim(s) 1-3, 6, 7 and 9-11 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.

Part III DETAILED ACTION

Notice to Applicant(s)

1. This action is responsive to the following communications: amendment filed on **2/23/04**.
2. This application has been reconsidered. Claims 1, 2, 3, 6, 7, 9, 10, and 11 are pending.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371⁶ of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claims 1, 2, 3, 6, 7, and 11 are rejected under 35 U.S.C. 102(e) as being anticipated by Abe et al (Abe) (U. S. 6,499,822).

With respect to claims 1 and 7, Abe discloses obtaining a digital image file containing an image for printing by a digital printer (column 14, lines 50-65); printing the image onto a media so as to form a digital print (column 14, lines 50-65); printing a coordinate system (boundary

lines) on the medium over the image on the digital print that is not visible to the human eye under normal viewing conditions separate from the printing of the image, the coordinate system being capable of locating a specific area of the image on the print (column 16, lines 7-52; column 14, lines 1-8, and column 19, lines 7-24); and printing additional information (1503) on the media that provides information with respect to the content of the image at the specific area (column 15, lines 35-41), and scanning the digital print so as to obtain retrieving information (the bar coded information) and associating the information with the content of the image using the coordinates (column 15, lines 1-54).

With respect to claim 2, Abe discloses scanning the additional information (column 15, lines 42-47).

With respect to claim 3, Abe discloses the information is printed directly over the image (column 15, lines 35-41).

With regard to claim 6, Abe discloses the additional information is obtained by a single scanning operation (column 15, lines 42-54).

With respect to claim 11, Abe discloses an ink-jet printer (column 15, lines 35-41).

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 2626

6. Claims 9 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Abe in view of Nelson (U. S. 6,132,024).

With respect to claims 9 and 10, Abe differs from claims 9 and 10 in that he does not clearly disclose that the print is made on paper. Nelson discloses a printing system using paper as the print medium (column 1, lines 40-45). Therefore, it would have been obvious to one of ordinary skill in the art at the time of the invention to have modified Abe wherein the print is made on paper. It would have been obvious to one of ordinary skill in the art at the time of the invention to have modified Abe by the teaching of Nelson in order to vary the print output mediums.

Response to Arguments

7. Applicant's arguments filed 2/23/2004 have been fully considered but they are not persuasive. Applicant submits that Abe does not teach or suggest printing a coordinate system over the image. The Examiner disagrees.

Abe discloses superimposing the invisible color data indicating tile boundary lines on image data read from the image data memory (column 21, line 55 to column 22, line 11; column 22, lines 40-48; column 26, lines 18-34, and column 28, lines 45-49). Applicant also submits that the bar code information does not pertain to image content. The Examiner again disagrees. Abe discloses that the bar code information represents tile information (column 15, lines 35-41). This clearly reads on information pertaining to the image content of those areas.

Conclusion

8. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
